

## Partner search

- **Description of the expertise offered (up to 1000 characters)**

EcoAct, a boutique consultancy specialized in climate change, provides innovative and tailored solutions to governments, multinationals, and small and medium enterprises on measuring and reducing their environmental impacts. We support in the development and implementation of carbon strategies, CSR programs, and eco-innovation approaches in addition to carbon offset project and offsetting strategies.

EcoAct continually innovates on approaches and tools through the development of in-house R&D projects, which include:

- Developing methodologies to quantify biodiversity, health, poverty alleviation benefits of climate mitigation projects;
- Conceiving and developing collaborative and innovative solutions (e.g. turnkey Life Cycle Analysis platforms, eco-design simulations, decision aid tools, etc.)
- Proposing policy analysis and risk management solutions for decision makers
