Date (08-01-15)

• (*) Relevant topic in work programme
  • WATER-2b-2015: Integrated approaches to food security, low-carbon energy, sustainable water management and climate change mitigation

• Quick description of the project
  - Looking for a consortium in the phase of being set up
  - Looking for a consortium interested in integrated water management (quality and quantity) and agricultural solutions that answer these challenges of quality and quantity, at short and long term according to climate change.

• (*) Description of the expertise offered (up to 1000 characters)
  Strong expertise in:
  - Management of water catchment basins (quantity and quality)
  - Hydrogeology and integrated modelling (surface and groundwater)
  - Agronomy: Over 30 years of trials across France in crop health, fertilisation, hybrid seeds and a R&D department
  - IT decision-making and consultancy traceability tools (seeds, nutrition and crop health)
  - Precision agriculture tools and services
  - Management of the feed offering for pollinators
  - Ecodesign of agri-food and agro-industrial activities
  - Environmental offsetting solutions for land developers
  - Support for players in strategic agro-ecology consultancy

• Keywords describing the expertise offered (up to 10 words)
  • Agronomy
  • Ecophysiology
  • Hydrogeology and water quality management
  • Modelling (surface and groundwater, nitrate leaching, pesticides leaching)
  • Data mining and management
  • Geographic information system
  • Environmental law
  • Environmental economics
  • Mobilization of agricultural cooperatives

Organisation information

Organisation and country:
InVivo AgroSolutions, FRANCE

Type of organisation:
X Enterprise □ SME □ Academic □ Research institute □ Public Body □ Other: Association

Former participation in FP European projects?
X Yes □ No

Web address:
http://www.invivo-group.com/
Description of the organisation:
- Subsidiary of the N°1 French agricultural cooperative group, with 223 cooperatives members
- A major player in agricultural development and farm competitiveness, InVivo AgroSolutions is the no.1 agro-environmental operator enabling farmers to produce more and better.
