Extended Open Research Data Pilot in Horizon 2020

If selected, all applicants will participate in the <u>Pilot on Open Research Data in Horizon 2020</u>¹, which aims to improve and maximise access to and re-use of research data generated by actions.

However, participation in the Pilot is flexible in the sense that it does not mean that **all** research data needs to be open. After the action has started, participants will formulate a <u>Data Management Plan (DMP)</u>, which should address the relevant aspects of making data FAIR - findable, accessible, interoperable and re-usable, including what data the project will generate, whether and how it will be made accessible for verification and re-use, and how it will be curated and preserved. Through this DMP projects can define certain datasets to remain closed according to the principle "as open as possible, as closed as necessary". A Data Management Plan does **not** have to be submitted at the proposal stage.

Furthermore, applicants also have the possibility to opt out of this Pilot completely at any stage (before or after the grant signature), thereby freeing themselves retroactively from the associated obligations.

Please note that participation in this Pilot does not constitute part of the evaluation process. Proposals will not be penalised for opting out.

We wish to opt out of the Pilot on Open Research Data in Horizon 2020.

PROPOSAL ACRONYM

Cover Page:

- List the other PIs, indicating the Host Institution of each PI
- Proposal duration in months

Text highlighted in grey should be deleted.

Proposal summary (identical to the abstract from the online proposal submission forms, section 1).

The abstract (summary) should, at a glance, provide the reader with a clear understanding of the objectives of the research proposal and how they will be achieved. The abstract will be used as the short description of your research proposal in the evaluation process and in communications to potential remote referees and/or to inform the Commission and/or the programme management committees and/or relevant national funding agencies (provided you give permission to do so where requested in the online proposal submission forms, section 1). It must therefore be short and precise and should not contain confidential information.

Please use plain typed text, avoiding formulae and other special characters. The abstract must be written in English. There is a limit of 2000 characters (spaces and line breaks included).

¹ Instructions for completing Part B1 can be found in the 'Information for Applicants to the Synergy Grant 2018 Call'.

Section a: Extended Synopsis of the scientific proposal (max. 5 pages)

[The Extended Synopsis should give a concise presentation of the scientific proposal, with particular attention to the ground-breaking nature of the research project, which will allow evaluation panels to assess, in Step 1 of the evaluation, the feasibility of the outlined scientific approach. Describe the proposed work in the context of the state of the art of the field. It is important that the extended synopsis contains minimum information relevant to the evaluation criteria, since the step 1 panel will have access only to part B1. Describe the synergy, the complementarity and the working arrangement aspects of the group.

References to literature should also be included. Please use a reference style that is commonly used in your discipline such as American Chemical Society (ACS) style, American Medical Association (AMA) style, Modern Language Association (MLA) style, etc. and that allows the evaluators to easily retrieve each reference. References do not count towards the page limits.]

Each PI is required to fill in their budget breakdown using the following budget table and the declaration of their level of commitment to the project. Depending on the number of PIs you may delete unneeded columns. All eligible costs requested should be included in the budget. Please use whole euro values only. In case you are requesting additional funding (up to EUR 4 million) above the normal EUR 10 million, include these top-up costs in the budget table as well and justify your request in the second table at the end. The Total Estimated Eligible Costs and the Total Requested Grant amounts in the table MUST match those presented in the online proposal submission form, section 3 – Budget.
