NCP Twinning

In this section we would like to present four useful tools designed in order to facilitate the search for partners for the consortium. Partner Search System and Partner Profiles are provided by ETNA2020 partners and work in complementary way. Partner Search enables publishing proposal ideas aiming to search for partners needed for collaboration within their project proposals where Partner Profiles allows entities which are eager to collaborate within a current call for proposals to publish their profiles offering their expertise to anyone looking for consortium member. We also provides links to EEN Business Offers and Requests, working on similar basis EEN tool and TRIP database collecting information about on-going and closed projects.

Type of Action: Innovation action

Evaluation Scheme: Single stage

Closure Date: 01/02/2017

[Back to Partner search](#)

Step 2 – National Contact Point PS check criteria

- ✓ The **identity of the proposer** is given/disclosed
- ✓ The proposed project is **within the scope** of the Work Programme
- ✓ The **proposal description hides key competitive information**
- ✓ The outline has the **correct level of detail**
- ✓ The partner search is **relevant for the Transport community**
- ✓ The specific **call and topic are clearly identified**
- ✓ The **consortium foreseen** (existing + sought partners) is **reasonable** for selected topic and instrument
- ✓ The description of the “Partner Profile Sought” is well targeted
- ✓ The proposer is not **a consultant looking for clients**

→ Publishing the PS will make it available for all website viewers and they can start publish EOIs for this partner search proposal

Step 3 – EOI (Expression of Interest)
