

Sustainable Solutions

- *Tuomas Tammilehto*
- *tuomas.tammilehto@laurea.fi*
- *Laurea University of Applied Sciences (Finland)*
- *Role: WP leader*
- Proposal activity: **FCT-02 Technologies to enhance the fight against crime and terrorism**

Proposal idea/content

- *Since organised crime (OC) is not restricted to any formalities, it is able to adopt fast and efficiently all new possibilities to make money.*
- *Thus, OC is known for its tech savviness, and LEAs are often behind in this race.*
- *When catching up the gap, a critical NEED is that all developed solutions are societally and ethically sustainable.*
- *LAUREA is proposing to build the so-called compliance framework, i.e. to ensure that technology is:*
 - *Legally*
 - *Ethically, and*
 - *Societally acceptable*
- *Thus, in compliance with European societal values, fundamental rights and applicable legislation.*

Regulation

**Ethical
concerns**

**Societal
concerns**

**E.g. Conducting Societal Impact
Assessment,
Building Code of Conduct, Privacy by
design –principle...**

**LEGALLY, ETHICALLY, AND
SOCIETALLY ACCEPTABLE
SOLUTIONS**

Project participants

- Proposed coordinator: *YOU?*
- Partners / Other participants:
 - LEAs,
 - Universities,
 - Banks,
 - Businesses
 - SMES
