  - *Vice Director*
  - *akman@itu.edu.tr*
  - *+90 212 2856376*

## *OUR TARGETED TOPIC*

[SU-DRS01-2019](#)

Human factors, and social, societal, and organisational aspects for disaster-resilient societies

## *List your 3 major needs*

- *Work with organizations in order to disseminate our knowledge and expertise on forming resilient communities*
- *Learn about best practices and also gaps in Europe to create a better model.*
- *Means to apply the participatory-model to different communities.*

## *Idea is:*

- *A practical and applicable model at a local level that includes community, local government and critical stakeholders to increase disaster awareness and knowledge*
- *In order for this model to be usable in different communities, it is necessary to be knowledgeable on cultural differences in Europe and different approaches used by practitioners in disaster management (therefore working with different organizations and incorporating their expertise and experience is a must)*

*Center of Excellence in Disaster Management /Istanbul  
Technical University  
can provide*

- *Skills, consultancy*
- *Tools*
- *Partnerships*
