

Research and Innovation Staff Exchange (RISE) programme 2018 - 2020

What is RISE?

RISE stands for “Research and Innovation Staff Exchange” and it is part of the Horizon 2020 family of Marie Skłodowska-Curie Actions (MSCA). RISE provides funding **in any scientific field** for joint research and innovation projects implemented through exchange of staff and networking.

General objectives

- Foster **collaborations** between **academia and industry** as a catalyst for innovation;
- Boost the **careers** of researchers through mobility;
- Encourage **excellence in science** and new discoveries by working **across disciplines**;
- Strengthen European and global **partnerships**.

Who can participate in RISE and what does RISE fund?

All organisations involved in research and innovation activities, academic and non-academic (e.g. SMEs, NGOs, museums, hospitals, etc.), are potential participants. A RISE consortium consists of at least three independent participants in three different countries.

RISE funds exchanges of research staff between academic and non-academic organisations (inter-sectoral secondments) and between EU Member States / Associated Countries and other organisations located in the rest of the world (international secondments).

Research staff of any nationality and at any career stage can be seconded, including administrative, managerial or technical roles involved with the scientific tasks of the project.

RISE enables staff mobility and also contributes in a flexible way to research and administrative costs.

BUDGET

- 80 million €/call
- ≤ 2.4 million €/project
- ≤ Four-year grant
- Unit costs = easy administration
- Covers staff mobility, research, networking, training, management
