Oak Branch

President

Targeted topics

SU-DS03-2019-2020 - Digital Security and privacy for citizens and Small and Medium Enterprises and Micro Enterprises

SU-FCT01-2018-2019-2020 - Human factors, and social, societal, and organisational aspects to solve issues in fighting against crime and terrorism

Competencies

- *Who we are* : Alliance of 6 European tech SMEs with a focus on collecting, processing & analyzing text and visual data (images & videos)
- *Organization experience in the European project*
We have the interest of end-users (NGO & law enforcement).
- *The skills we can bring*
COLLECT: from people (flaggers), from open sources (including dark web) and from restricted sources under lawful conditions (with permission of the owner of the data, under court order or other lawful authorities)
ANALYSE: human review or automatically, machine learning, AI
PROCESS: categorise, organise, classify, visualise
DATA: text, images, videos, audio
IDENTIFY: our members identify people (victims & criminals), assets and threats

Project idea

- *Develop innovative and user-friendly solutions to deal with illegal content*
 - Bundle technologies together to enable NGOs dealing with reports of illegal content (child sexual abuse material, terrorism, hate...) to provide enriched reports to law enforcement agencies, based on information collected from public or inhouse resources.
 - Benefit is to help law enforcement authorities to prioritize investigations to identify victims or perpetrators.
- *List of the complementary skills you need for your consortium*
 - On-line help-desks services or "one-stop-shop" informing & helping citizens
 - Encryption companies,
 - Law Enforcement Agencies
 - Academia
 - Coordinator (*last but not least!*)
