

Smart site protection

+ Connexions with french and worldwide Practitioners and sensitive sites owners

Targeted topics

SU-INFRA01-2018-2019-2020: Combined physical and cyber threats

SU-INFRA02-2019: Security for smart and safe cities, including for public spaces

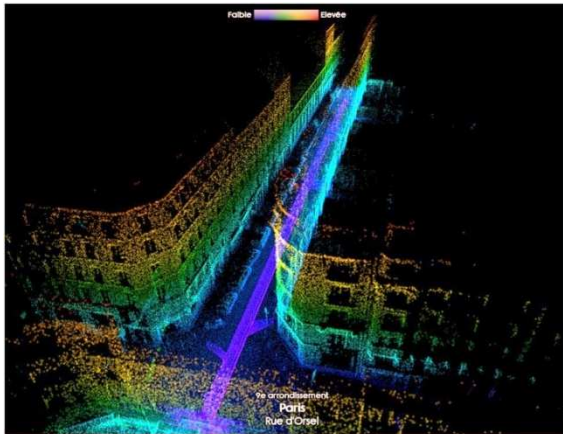

SU-BES02-2018-2019-2020: Technologies to enhance border and external security

SU-BES03-2018-2019-2020: Demonstration of applied solutions to enhance border and external security

Digital audit, optimized reinforcement of critical sites

1 - We strengthen and optimize site protection through 3D simulation

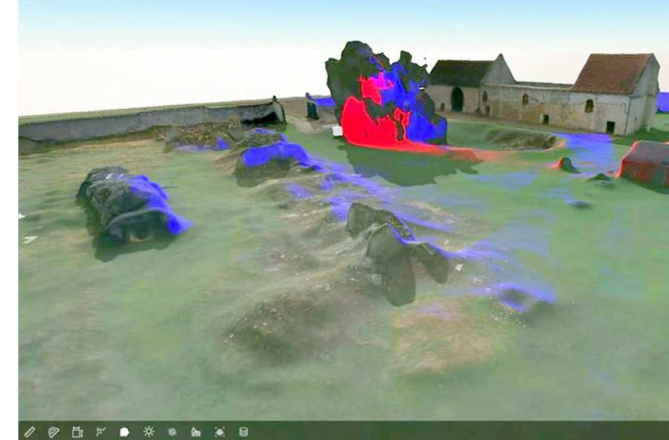

A workflow to create a digital Mockup

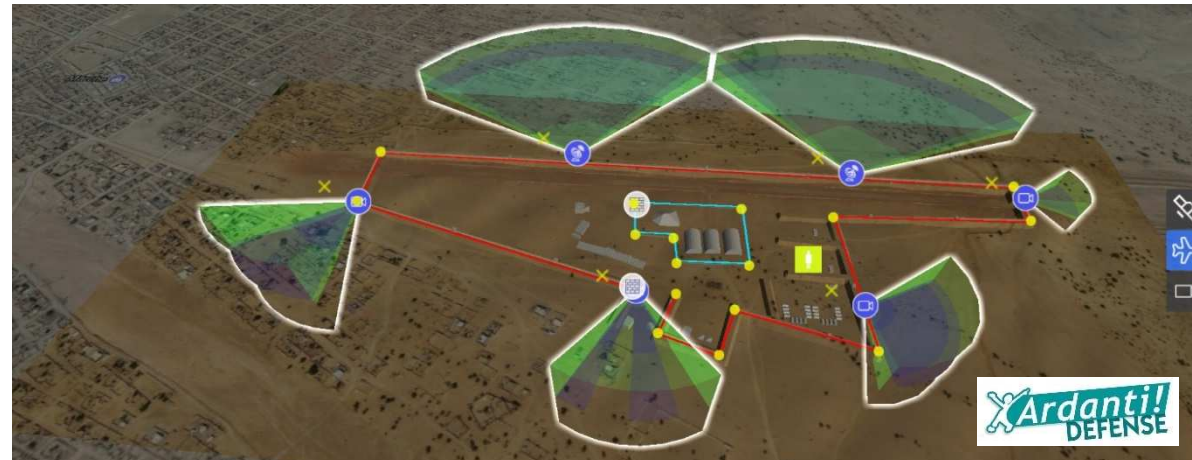

Digital protection audit

Vulnerability search algorithms

A simulator to optimize the reinforcements

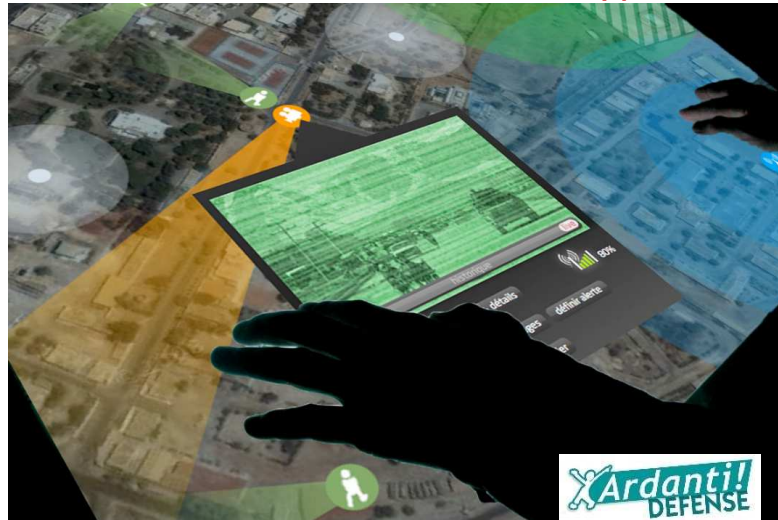

Command and Control of site protection or border surveillance

2 – We simplify the conduct of surveillance, and reinforces protection

Unified and Multisensors C2 Hypervision

Used in the field by the French Ministry of Defense

Technologies we are working on:

- Artificial intelligence
- IoT
- Digital Mapping
- Unattended Sensors

Border surveillance tools
