1) PROJECT INFORMATION

Field of expertise related to the topic: The objectives of foundation Blaise Pascal (hereafter denoted by FBP) are to promote, foster and develop popularizations of mathematics and computer science and to attract young people to scientific fields like those. The FBP closely pays attention to gender issues in these scientific domains and to the difficulties for disadvantaged public to embrace

scientific careers. The FBP structures and federates a network of actors implied in mathematics and computer science mediation, organizes call for projects to fund popularization projects in mathematics and computer science, and gives back the taste of mathematics and computer science by fostering clubs and summer camps in these fields.

Potential contribution to the project: The foundation Blaise Pascal, thanks to its rich networks of actors, can participate to the diffusion of the ideas and solutions designed within the project. The FBP can organize an experimentation of the proposed solutions at a national scale with the actors and the partners of its networks. Thanks to its national role, the FBP can reach a very large and diverse audience.

Role in the project:
