Call summary

Objective:

The goal of Individual Fellowships is to enhance the creative and innovative potential of experienced researchers wishing to diversify their individual competence in terms of skill acquisition at multi- or inter-disciplinary level through advanced training, international and inter-sectoral mobility.

Individual Fellowships provide opportunities to acquire and transfer new knowledge and to work on research in a European context (EU Member States and Associated Countries) or outside Europe. The scheme particularly supports the return and reintegration of researchers from outside Europe who have previously worked here. It also develops or helps to restart the careers of individual researchers that show great potential, considering their experience.

Scope:

Support is foreseen for individual, trans-national fellowships awarded to the best or most promising researchers for employment in EU Member States or Associated Countries, based on an application made jointly by the researcher and host organisation in the academic or non-academic sectors.
The submission session is now available for: MSCA-IF-2014-EF(MSCA-IF-EF-ST)

Proposals for European Fellowships involve a single host organisation (future beneficiary) established in a MS or AC. The project proposals are submitted by this host organisation, which is represented by the supervisor, in liaison with the researcher.

For European Fellowships the applicants can submit their proposals as Standard EF to one of the 8 main evaluation panels[1] or to one of the 2 multidisciplinary panels: Career Restart Panel (CAR) and Reintegration Panel (RI). The CAR panel provides financial support to individual researchers who want to resume research in Europe after a career break, while the RI panel is dedicated to researchers who want to return to Europe to re-integrate in a longer term research position.
