Project ideas

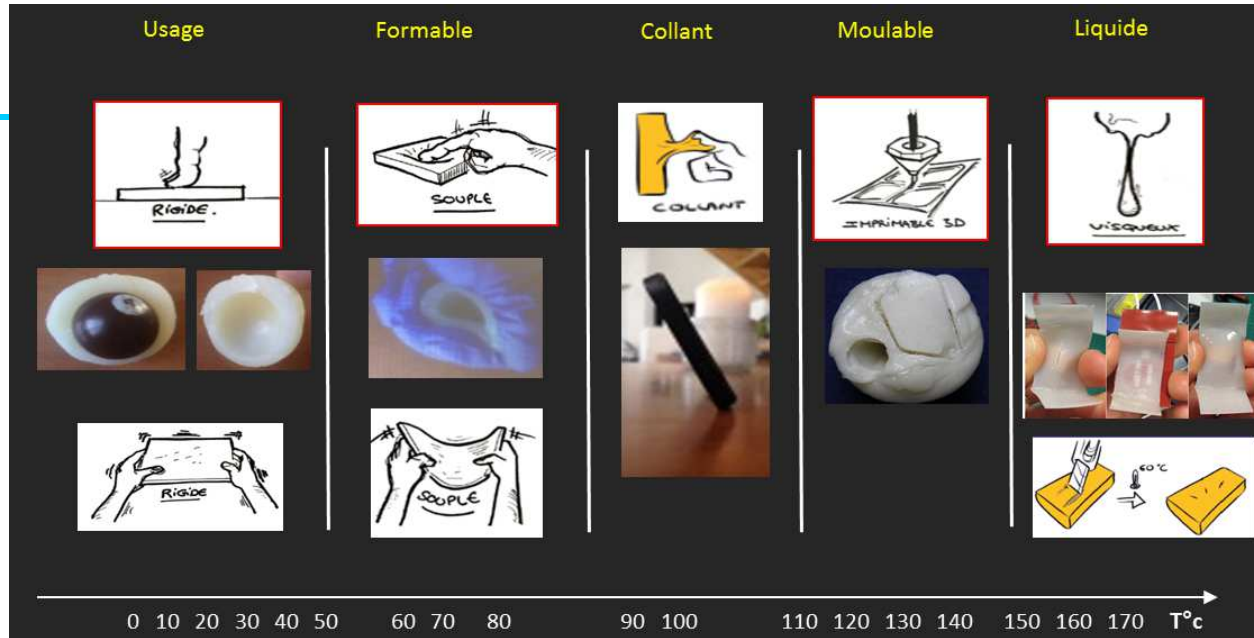

- Philippe Coronel
- Creation of Start-Up (Q4 2019)
- The original research comes from the CEA
- Expertise in polymer material
- Team : Economy of matter
- ...
- philcoro@hotmail.fr
- +33 6 70 28 20 97
- Web page under construction

Project ideas

- Project title : *CyD Custom Your Design*
- Topic foreseen or thematic
 - The CyD Custom Your Design Project: aims to meet the challenges of saving material and saving energy; and create new product life cycle
- Short description of the project
 - An active material to allow active uses. Our project is based on a self-healing material with multiple properties and infinitely transformable (with precise control for every shaping). Many sectors are potentially involved and we are looking for partners to evaluate them. We are in the process of technological maturation and in the process of creating a Start-Up.

- The properties of the material

- Current consortium : Not yet
- Type of partners you need
 - chemistry and biology laboratory
 - partner for proof of concept
 - company for a usage model evaluation
