CYBER-SECURITY & INTELLIGENCE

Area of interest	Choose Y or N
DS-07-2017 - RIA: Addressing Advanced Cyber Security Threats and Threat Actors **A) Situational Awareness**	Y
DS-07-2017 - IA: Addressing Advanced Cyber Security Threats and Threat Actors **B) Simulation Environments, Training**	N
DS-08-2017 – IA - Privacy, Data Protection, Digital Identities – **Privacy-enhancing Technologies (PET)**	Y
DS-08-2017 – IA - Privacy, Data Protection, Digital Identities – **General Data Protection Regulation in practice**	Y
DS-08-2017 – IA - Privacy, Data Protection, Digital Identities – **Secure digital identities**	Y

Behavioral biometric solution

Problem : **Ensure** the authorization of the individual requesting access to **sensitive** data

Because each individual has a unique way of typing on the keyboard, the CNIL compliant **AZGUARD solution of strong authentication by behavioral biometry**, establishes a biometric profile by measuring the **keystroke dynamics** of the user.
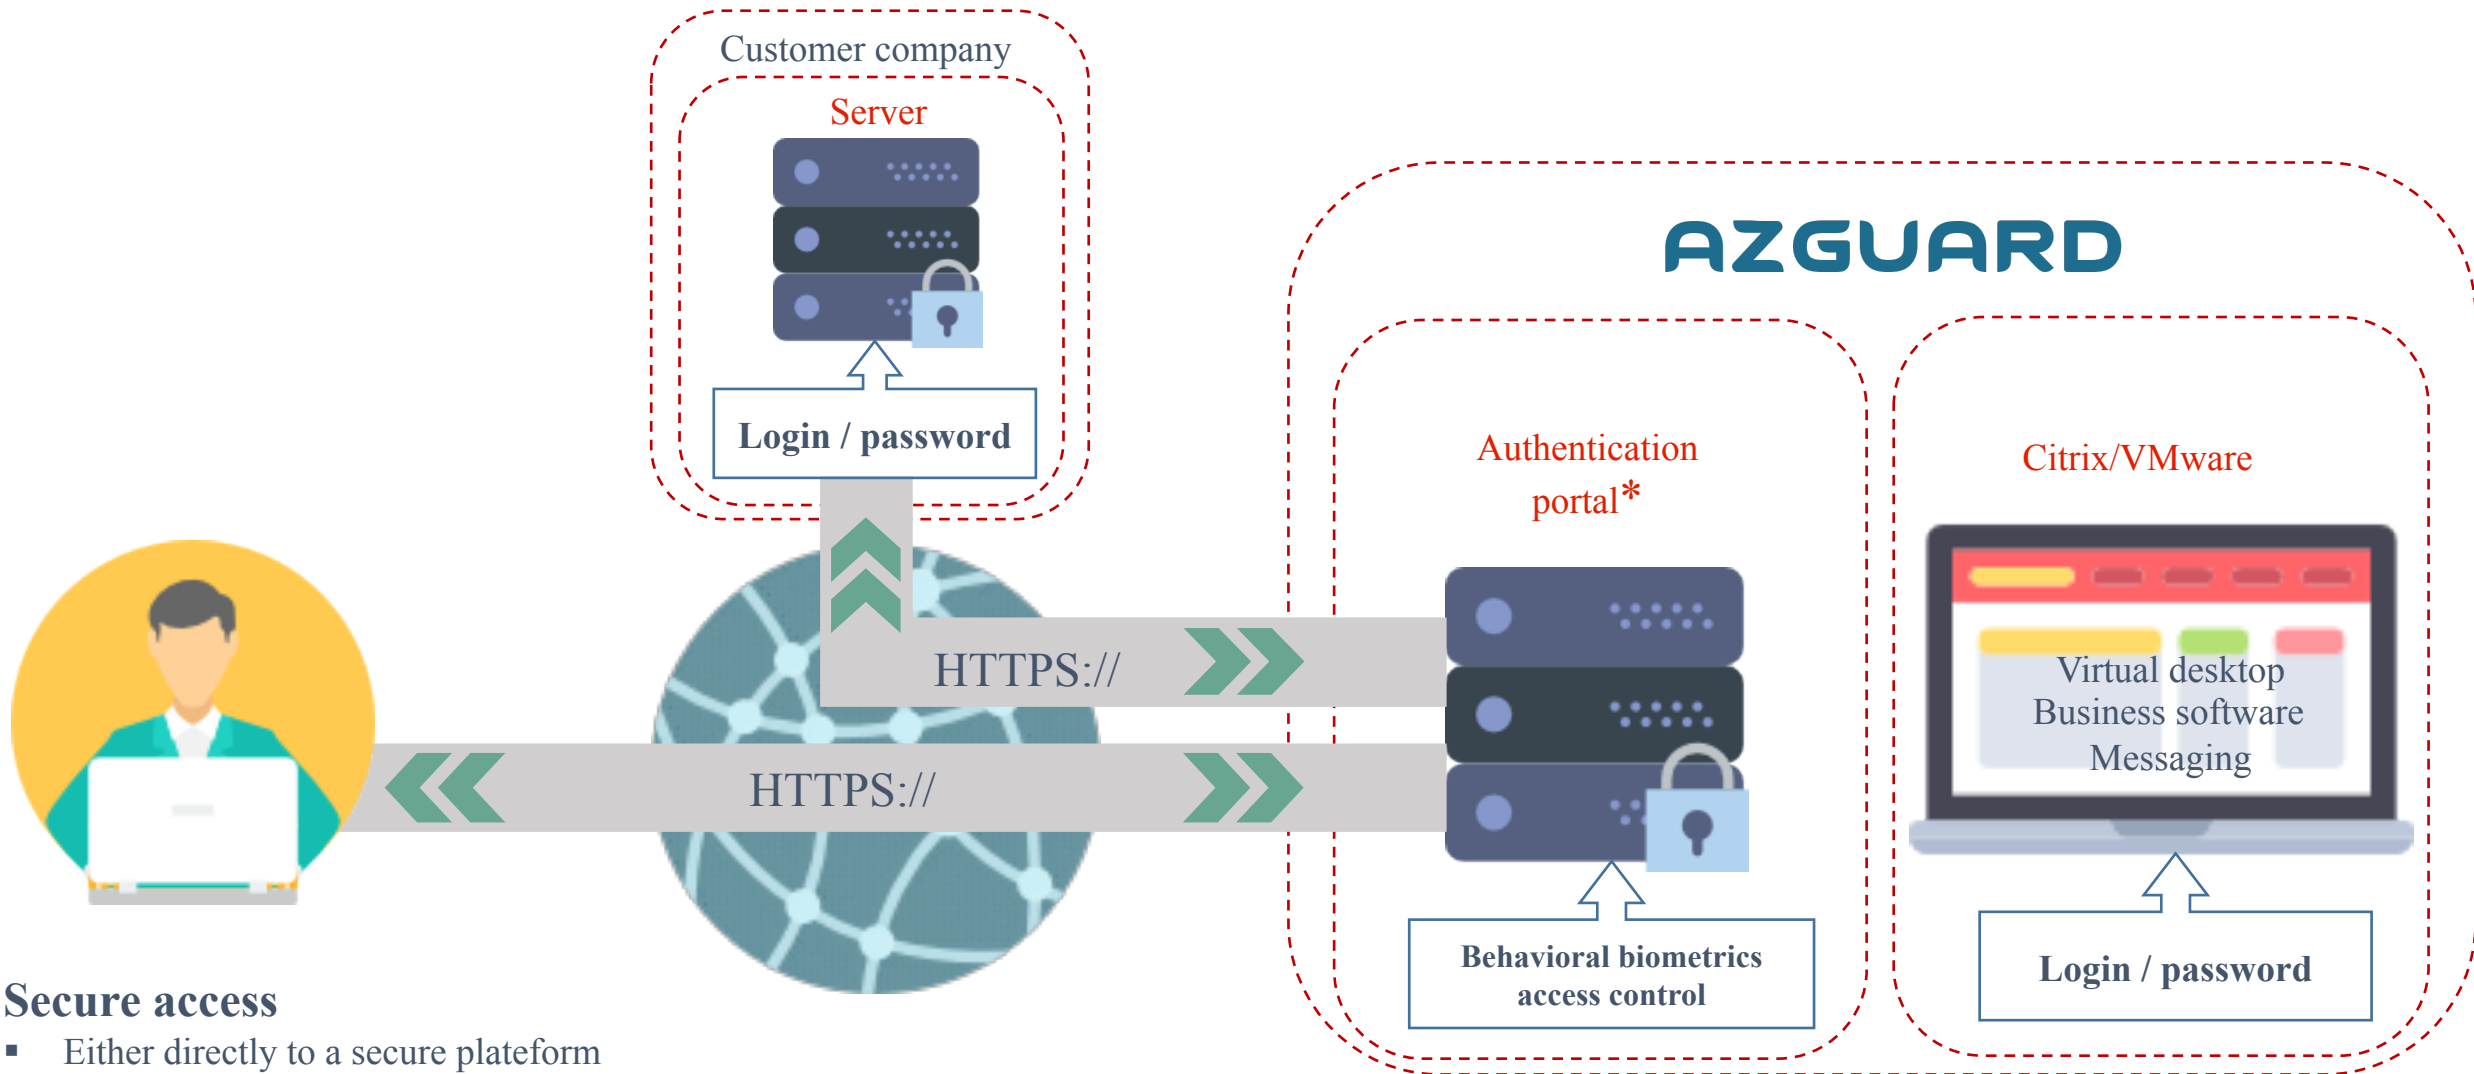

ANSSI and CNIL compliant   Hosted on french territory

Use case : Access control
