

NEFERTITI#

Networking European Farms to Enhance cRoss ferTilisation and Innovation uptake Through demonstration

Adrien Guichaoua – ACTA
Info Day H2020 – PARIS – 06/11/2017

Project submitted in response to the call:

RUR-12-2017: Networking European farms to boost thematic knowledge exchanges and close the innovation gap

....Logic continuity of RUR 11....

RUR-11-2016: On-farm demonstrations: deepening farmer-to-farmer learning mechanisms

.....As operational implementation one year later....

- Official result disclosed by the end of June 2017
- Official starting date the 1st of January 2018 (4 years)
- ■7 M€ 32 Partners 17 Countries

2 Projects funded under the call:

RUR-11-2016: On-farm demonstrations: deepening farmer-to-farmer learning mechanisms

Coordinator :The James
Hutton Institute (UK)
Lee-Ann Sutherland
13 partners
12 countries

Building an interactive **AgriDemo**-Hub

community:enhancing

farmer to farmer learning

Coordinator : ILVO (BE)

Fleur MARCHAND

14 partners12 countries

2 PILLARS of the projects:

- 1.Inventory of Demo-Farms across Europe
- 1.Best practices and methodologies for demonstration

FARM DEMO HUB gathering both projects

FARMDEMO

- •Co-produce and co-design of a **geo-referenced inventory** of demonstration farms and organizations
- •Interactive, user oriented, web-map application, including the inventory, but also farm demo showcases, videos and other project results
- •Joint policy recommendations, policy workshops and a joint final conference!

Strategy acta RUR 12:

- Lobby towards DG AGRI in 2015 to push a demonstration/experimentation topic
- ■2 topics on Demonstration : RUR 11 & RUR 12
- ■2 projects funded under RUR 11....acta partner of PLAID.
- ■Contacted by ERIAFF and Wageningen.....strategic negotiations...
- > > Strategic decision to go for coordination!
- ✓ with ERIAFF and WUR.
- √+ 50% of PLAID / AGRIDEMO partners
- √ + key partners (coordinators) of on going H2020 projects
- √ + other partners

Abstract of the project (1)

NEFERTITI is a unique project that establishes 10 interactive thematic networks and bring together 45 regional clusters (hubs) of demo-farmers and the involved actors (advisors, NGOs, industry, education, researchers and policy makers) in 17 countries.

NEFERTITI focuses on creating added value from the exchange of knowledge, actors, farmers and technical content over the networks in order to boost innovation uptake, to improve peer to peer learning and network connectivity between farms actors across Europe, thus contributing to a more competitive, sustainable and climate-smart agriculture.

Abstract of the project (2)

NEFERTITI address 10 themes that have been chosen based on key concerns of the farming communities of the regional hubs in the project, covering together a balanced range of themes over three main agricultural sectors: animal production, arable farming and horticultural production. The themes have also been chosen regarding their innovation potential, their demonstration potential and the cross-fertilisation potential among the themes, the sectors and the actors.

Themes are closely linked to the H2020 Thematic Networks and will connect with other organisational structures at grass root level, like EIP operational groups and study clubs that will confer to the project a key role of accelerator and empowerment of the dissemination and of the uptake of the practical-oriented knowledge delivered by all EIP related projects.

Abstract of the project (3)

A monitoring and learning program supports the systematic extraction of lessons learnt, lessons to be shared with wide audiences including AKIS actors and public authorities.

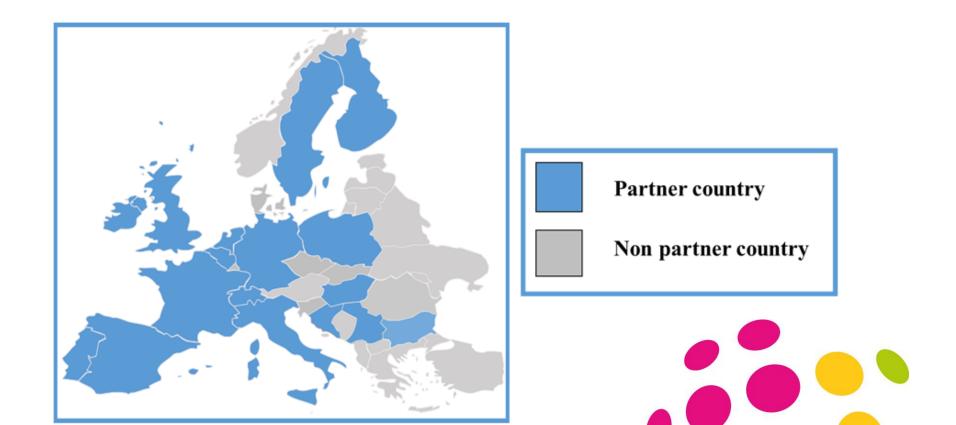

A web based platform unlocks the experience, actors, demo details and the related content for wide spread sharing, enhanced by dedicated production of relevant material (including high-quality professional videos) in each language of the partners.

NEFERTITI will engage a **policy dialogue with EU Regions** to <u>match farmers</u> and policy makers' interests in view of the networks sustainability.

- •32 Partners from 17 countries
- •Farmer organisations / Advisory Services / Cooperatives / Applied Research / Academic Research / Universities / NGOs / Regions / Municipalities....

List of partners:

Association de coordination technique agricole (ACTA)	ProAgria Etelä-Pohjanmaa (ProAgria EP)
Advisory Service Croatia (ASC)	Province of Zuid-Holland (PZH)
Agricultural Advisory Center in Brwinów (AAC)	Regione Toscana (RT)

Seinäjoki University of Applied Sciences (SeAMK)

Comité européen du machinisme agricole (CEMA)

Gemeente Westland (Municipality of Westland) (WL)

VERBAND FÜR ÖKOLOGISCHEN LANDBAU (NATURLAND)

BIOLAND BERATUNG GMBH (BIOLAND)

Wageningen Research (WR)

(EVILVO)

Inagro (Inagro)

Hooibeekhoeve (HH)

DEMETER E.V. (DEMETER)

The Agriculture and Food Development Authority (Teagasc)

Flanders research institute for Agriculture, Fisheries & Food

Öko-Obstbau Nordeutschland Versuchs und Beratungsring (ÖON)

Tecnologías e Infraestructuras Agroalimentarias (INTIA)

Assemblée permanente des chambres d'agriculture (APCA)

Biosense Institute - (BIOS)

University of Almería (UAL) Forschungsinstitut fur Biologischenlandbau Stiftung (FiBL)

Gruenlandzentrum Niedersachsen (Centre for Grassland) (GLZ) Széchenyi István Egyetem (SZE)

Innovation for Agriculture (IFA)

Associação para a Inovação e o Desenvolvimento Empresaria (INOVISA)

Inra Transfert (IT)

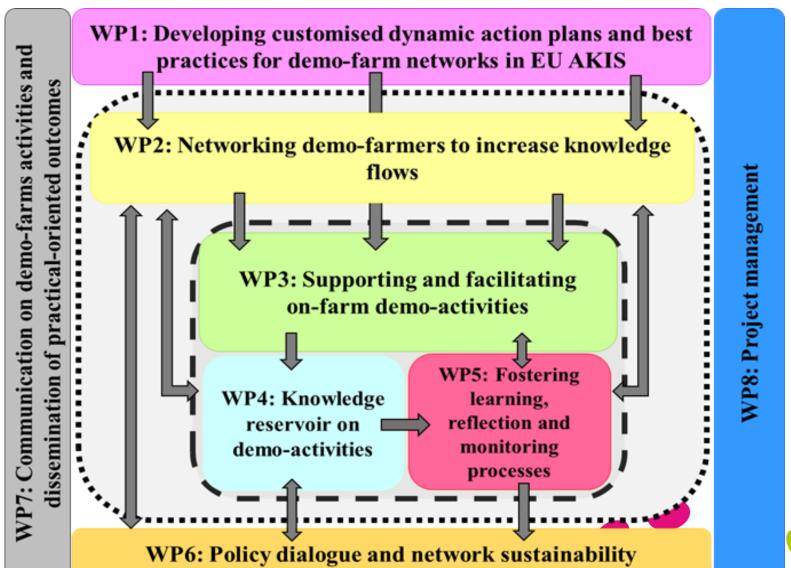

Instituto Superior de Agronomia / Universidade Lisboa (ISA/ULisboa)

Natzionalna slujba za saveti v zemedelieto (NAAS)

International Federation of Organic Agriculture Movements (IFOAM) James Hutton Institute (HUTTON)

Structure of the project

Structure of the networks

NETWORKS	01 - Grassland & carbon sequestration	02 - Data driven decisions for dairy farmers	03 - Robust organic livestock systems	04 - Optimal soil quality in arable crops	05 - Arable crop sensing & variable rate applications	06 - Increasing productivity & quality in organic arable crops	07 - Improved nutrient use efficiency in horticulture	08 - Water use efficiency in horticulture	09 - Reducing pesticides use in the production of grapes, fruits & vegetables	10 - 'You can farm' Farm attractiveness

Structure of the networks

Box 1.1: Hubs, networks, coaches and network leaders

What is a hub?

Organised at regional/national level, a hub is a group of several demo-farms working on a given topic/challenge (crossroad of a sector and a theme) and connected to all relevant AKIS actors and stakeholders (R&I, farming sector, education, industry, coops, SMEs...) and their facilities.

What is a network?

Organised at EU level, a network connects several regional/national hubs, constituting a cross-border multi-actor interactive network of demo-farms and the AKIS actors from several EU countries working on the same topic/challenge and exchanging practical oriented knowledge, farm best-practices & relevant innovations.

Who is a coach?

A coach is a project partner managing the hubs' activities. The coach connect all relevant AKIS actors and stakeholders around the hub in order to boost knowledge exchange and cross-fertilisation around demonstrations. The coach is connected to the other hubs' coaches of the same network and also of other NEFERTITI networks.

Who is a network leader?

A network leader is a coach managing the network activities. He harvest all relevant ready to use material and knowledge from relevant EU projects, organise concrete knowledge exchange activities within the network (knowledge virtual and face to face meeting, field cross-visits, etc...) and is responsible for cross-fertilisation with the other NEFERTITI networks.

Coordination with PLAID & AGRIDEMO:

- •50 % of NEFERTITI partners participate to PLAID /AGRIDEMO
- ► To facilitate human relationship and cooperation efficiency.
- •Both coordinators have a key role in NEFERTITI (WPL 1 + WP5).
- ► To facilitate strategic coordination and alignment of actions
- •NEFERTITI work plan have been scheduled according to the expected PLAID /AGRIDEMO readiness deliverables.
- ► To tailor PLAID /AGRIDEMO deliverables as NEFERTITI inputs
- •PLAID & AGRIDEMO final Conference jointly organised with NEFERTITI mid-term conference.
- ► To boost communication impact and create added-value from synergies between H2020 projects

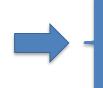

Coordination with PLAID & AGRIDEMO:

Focus on the deliverables

FarmDemo

NEFERTITI#

FARMDEMO geo-referenced Inventory on the FarmDemo Hub

WP2:Network development will build on the inventory of demo-farms to identify regional and national innovation actors

Best practices for effective demo-activities

WP1:Key factors behind successful network establishment; specified in relation to the 10 NEFERTITI themes

WP3: Supporting and facilitating demoactivities on-farm at local level.

WP5: Development and selection of the tailored guides

WP4:NEFERTITI platform development

WP7:Production and dissemination of multimedia material; Social media engagement and growth hacking.

FarmDemo Hub

- Show cases & virtual demo's
- Events & demonstrations
- Best practices & practice abstracts
- Community of DemoFarms & Organiz

PLAID & AGRIDEMO final Conference

Thank you for your attention!
