Our services

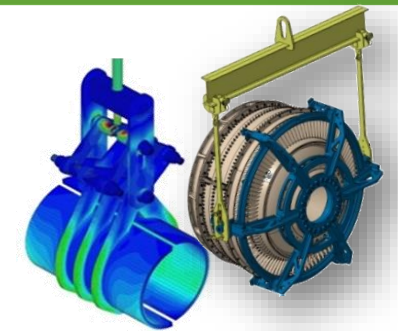

MEASUREMENTS & 3D PRINTING

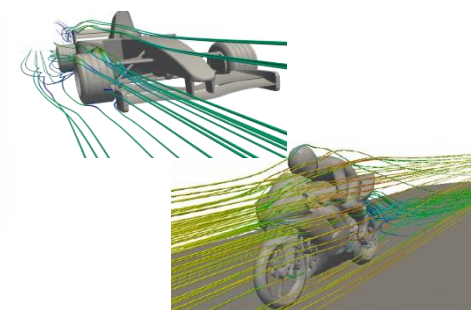

DRAWING & DESIGN

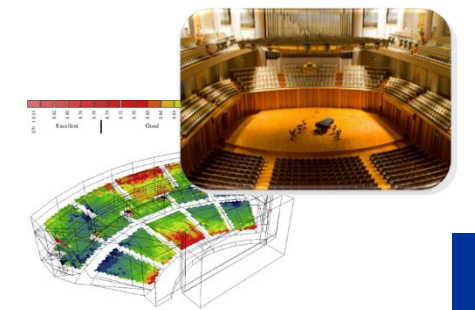

STRUCTURAL Analysis

FLUID Analysis

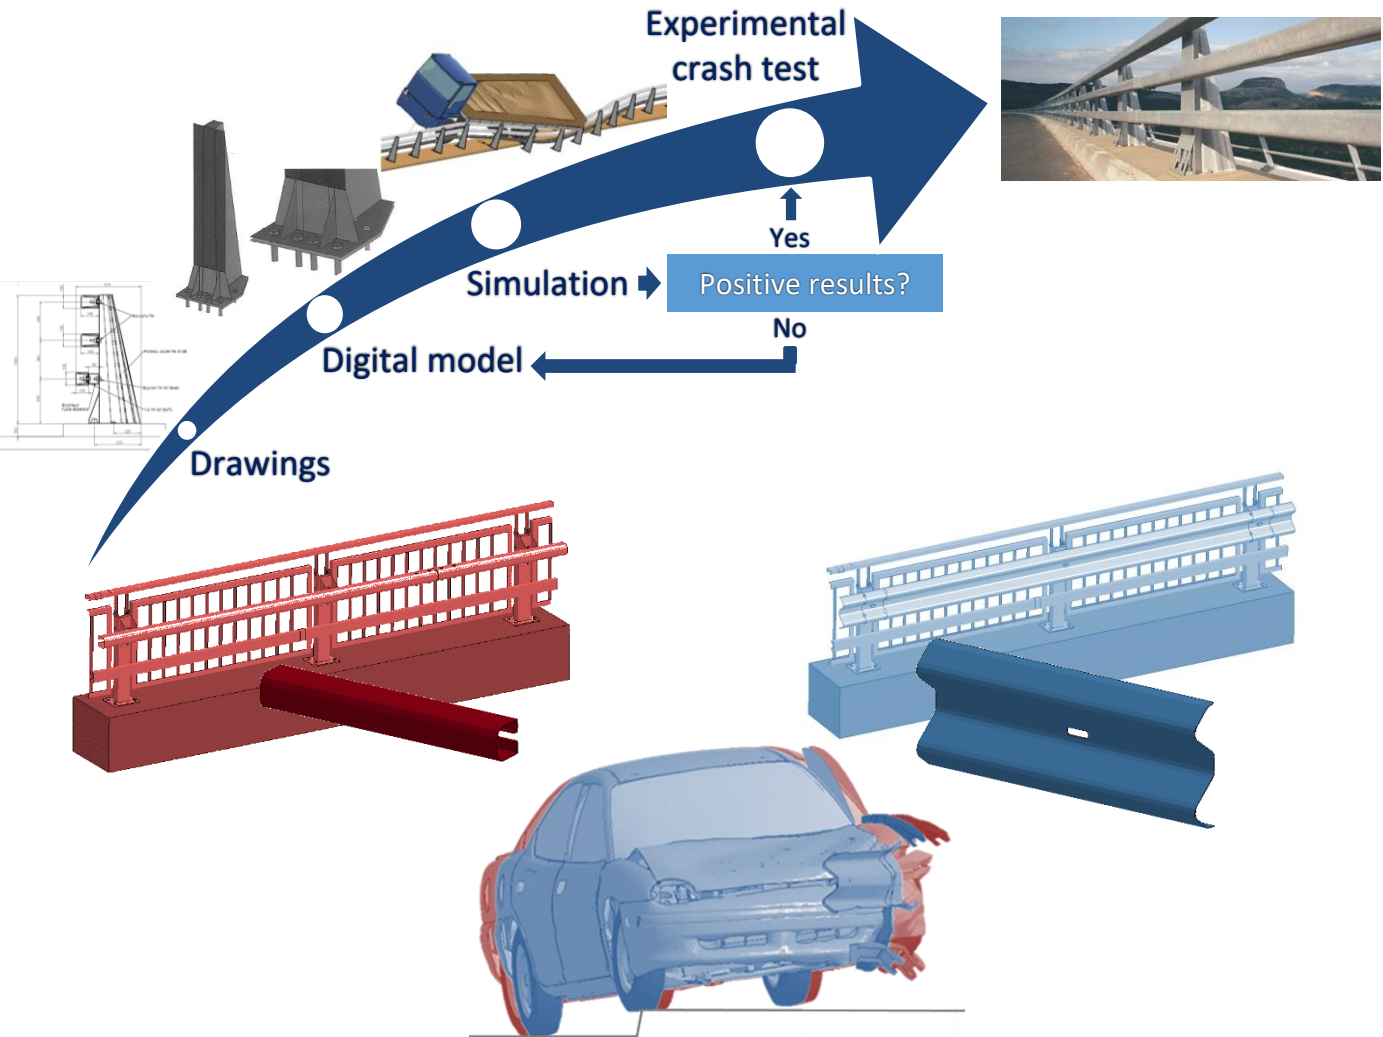

ACOUSTIC Analysis

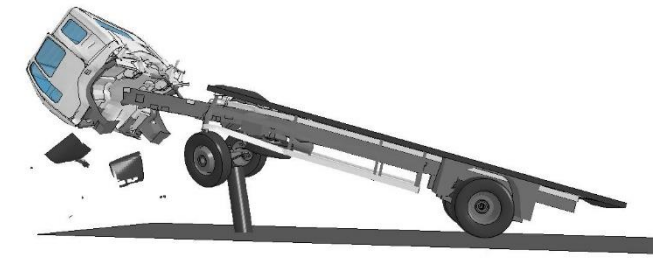

Crash and dynamics

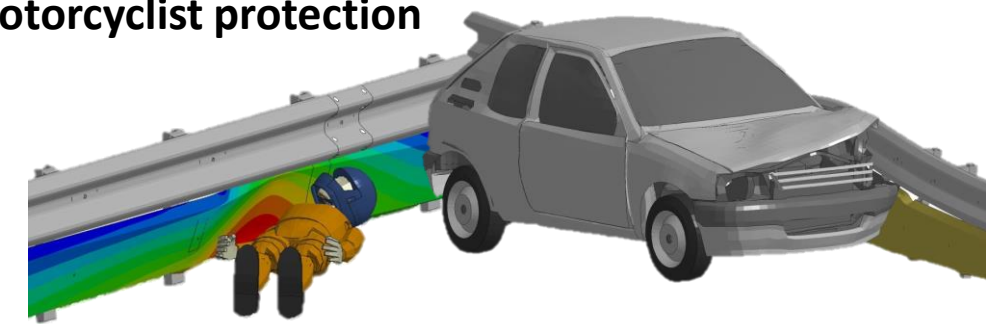

Anti-intrusion

Industrial protection

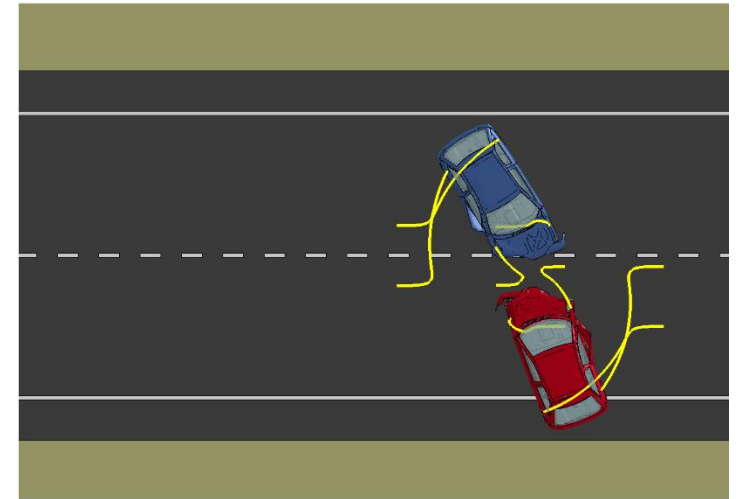

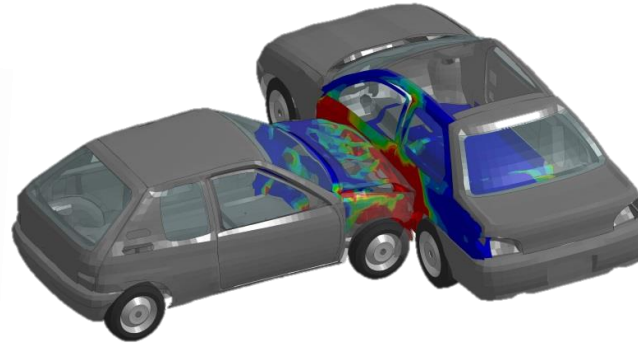

Motorcyclist protection

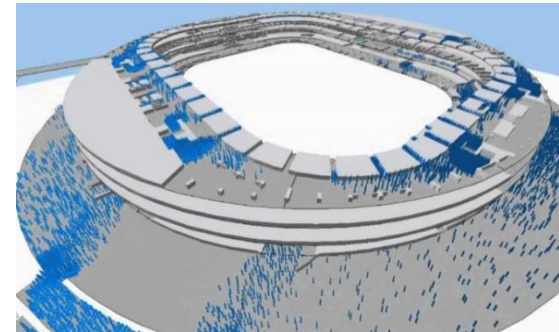

Crash and dynamics

Accident reconstruction

Traffic management and emergency scenarios simulations

Interesting calls:

Mobility for growth

MG-2-11-2020: Network and traffic management for future mobility

Automated Road Transport

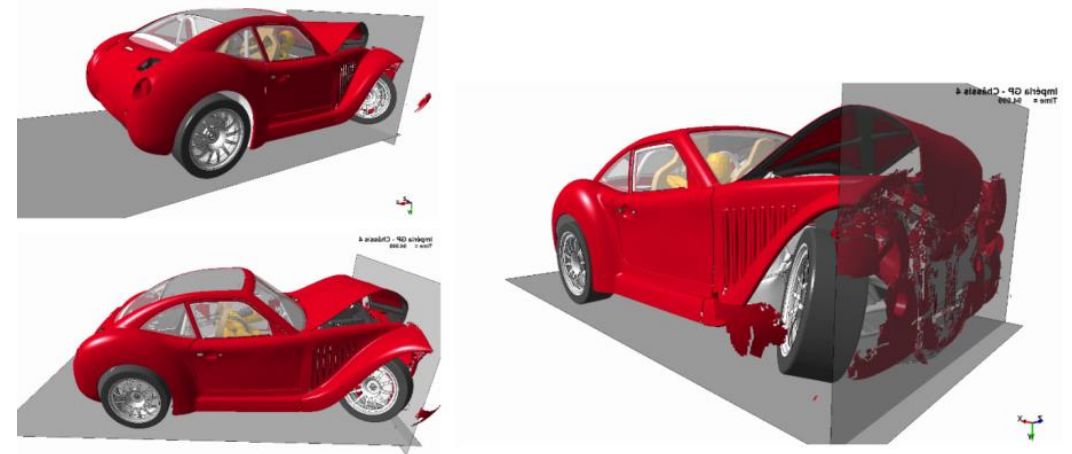

DT-ART-05-2020: Efficient and safe connected and automated heavy-duty vehicles in real logistics operations

DT-ART-06-2020: Large-scale, cross-border demonstration of connected and highly automated driving functions for passenger cars

Green Vehicles

LC-GV-06-2020: Advanced light materials and their production processes for automotive applications

LC-GV-08-2020: Next generation electrified vehicles for urban and suburban use
