European Transport Network Alliance 2020

The network of the Horizon 2020 National Contact Points for 'Smart, Green and Integrated Transport'

Either you fly, drive or sail, we help you lead the way.

A long-exposure photograph of a train at night, showing vibrant light trails in yellow, orange, and red as the train moves through a dark environment.

What is ETNA 2020?

- ETNA 2020 is the **network of the Horizon 2020 National Contact Points** for ‘Smart, Green and Integrated Transport’
- The overall objective of ETNA 2020 (European Transport Network Alliance 2020) is to **foster innovation in trans-national cooperation in Transport** with a focus on promoting the active participation of new actors and regions in EU research calls and projects
- Transport **NCPs are key players in this mechanism**, but their role is complemented and **enhanced by the contribution of other relevant stakeholders**, giving real added value both in terms of knowledge and expertise

This section aims at presenting three useful tools designed in order to facilitate the search of partners for consortia. The Partner Profiles, which encloses a list of organisation classified per topics, therefore each topic gathers all those entities that could potentially work on specific topics for future project proposals. There are also links to EEN Business Offers and Requests and to TRIMIS (Transport Research and Innovation Monitoring and Information System) database, that collects information also about on-going and closed projects.

The ETNA 2020 Twinning Scheme is open for applications

The aim of the twinnings/bilateral visits is to transfer knowledge and experience on the day-to-day activities of ETNA2020 and Associated Transport NCPs, mainly aiming at strengthening the NCP network, especially through capacity building and exchange of best practices.

Each Pair / Team of NCPs (max. 5 NCPs per visit) has to decide on a framework of cooperation. Various schemes of exchange can be included in the scheme such as more experienced mentor to non-experienced mentee, peer-to-peer staff exchange, hands on twinning during major event and cooperation during joint workshops and specific trainings for stakeholders. The maximum duration for each visit is 2 days.

Pairs / Teams of NCPs wishing to participate in the twinning scheme should fill in the APPLICATION FORM and submit it to the Task Leader, Ms Eleana Gabriel (egabriel@research.org.cy).

Proposals will be evaluated by the Coordinator, the Work Package Leader and the Task Leader. An important evaluation criterion will be the expected output of the planned cooperation.
