# Cybersecurity certification

## Independent Safety Assessment Mission (ISA)

- The ISA mission of CERTIFER consist in assessing overall signaling system design, manufacturing, testing regarding safety objectives.
- Assessment of the subsystems (interlocking, train detection, hot box detection, operation control center,...) regarding CENELEC standards EN50126.

## Cybersecurity Mission

- The Cybersecurity mission is performed as following:
  - Review of Cybersecurity management plans;
  - Review of risks management processes;
  - Review of incidents management policy;
  - Documentary reviews (technical specifications, architectural diagrams, texts specification and reports...);
  - Assessment of counter measures and their impacts to mitigate risks;
