Orientations principales du WP18-19/20

- ❑ Une visibilité politique plus forte => Security Union!
- ❑ Des sujets plus limités en nombre et (globalement) plus clairs
- ❑ Un équilibre entre sujets focalisés et sujets ouverts
- ❑ Des enveloppes réservées pour chaque sujet
 - ➔ Un taux de succès sensiblement en hausse!
- ❑ SHS:
 - Des sujets « réservés » aux SHS
 - Une dimension sociétale plus claire dans les autres sujets
- ❑ **Des utilisateurs finaux partenaires** (cond. éligibilité!), par exemple pour :
 - **Les spécifications fonctionnelles et la validation de la solution** (le haut du cycle en V)
 - **La mise à disposition de composants de démonstrateurs** (locaux, logiciels, systèmes, etc.)
 - **La quantification des impacts estimés pour améliorer la sécurité**
