<u>Une belle histoire:</u>

Les équipes d'enseignants chercheurs de Le Mans Université ont réussi l'exploit d'un taux de réussite de **100% en obtenant le financement de leurs 3 projets** présentés.

Les lauréats sont:

➢ Nathalie Richard (Laboratoire Temps, Mondes, Sociétés • TEMOS - UMR CNRS 9016)
➢ Anthony Larcher (Laboratoire d'Informatique de l'Université du Mans • LIUM - EA 4023)
➢ Alain Zanella (Laboratoire Géosciences Le Mans • LPG - UMR CNRS 6112).
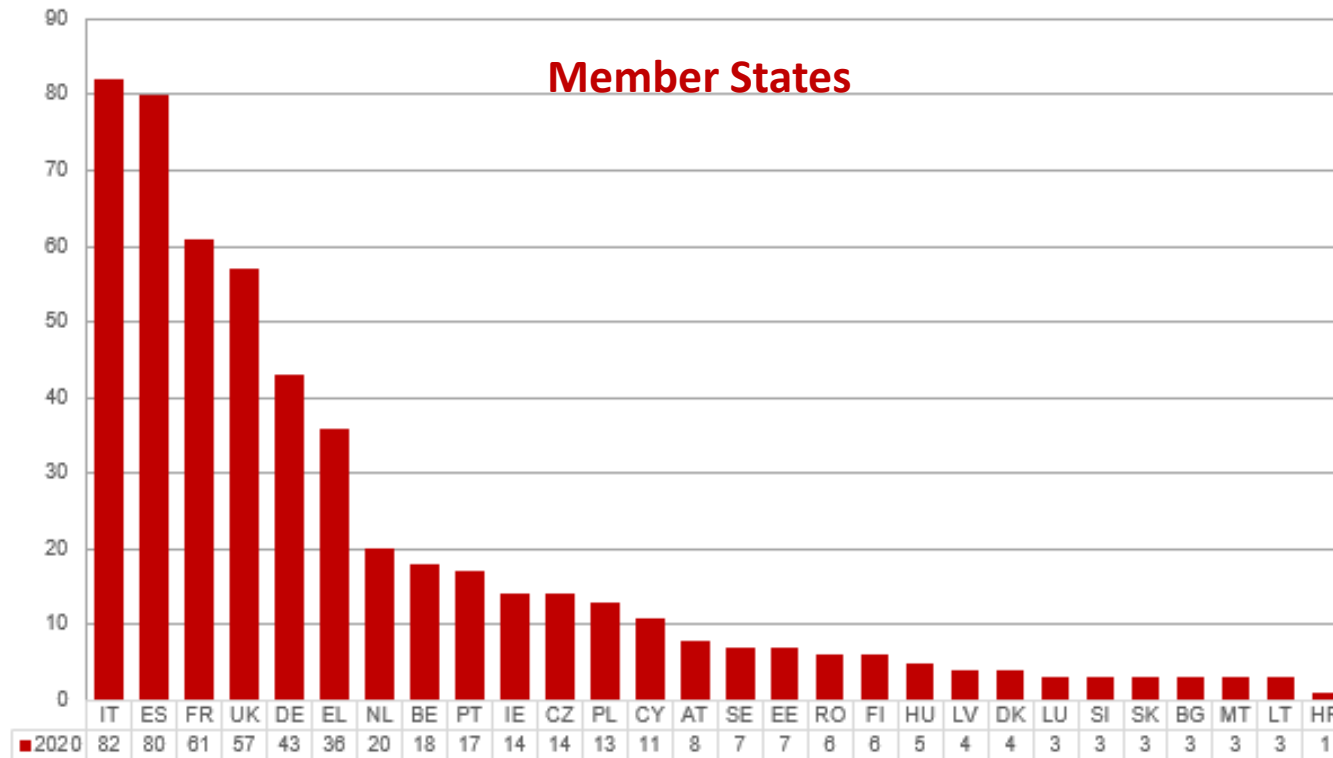

Les ingénieurs projets de l'université apportent une aide au montage indispensable, car les dossiers sont complexes.

« Nous avons été énormément aidés par les ingénieurs projets », appuie Nathalie Richard.

L'université est coordinatrice des trois projets, donc les ingénieurs projets continueront d'être en soutien pendant les quatre années du RISE. Un suivi indispensable, car ces projets déclenchent le financement d'un grand nombre de déplacements. Et **chaque chercheur travaille avec une équipe d'au moins 50 personnes à l'international**.
