General information

SESAME IT   Audrey Gayno-Amédro   a.gaynoamedro@sesame-it.com   +33 – 630 28 62 90

Targeted (sub)topics

INFRA call
1. SU-INFRA01-2018-2019-2020: Prevention, detection, response and mitigation of combined physical and cyber threats to critical infrastructure in Europe

AI call
3. SU-AI02-2020: Secure and resilient Artificial Intelligence technologies, tools and solutions in support of Law Enforcement and citizen protection, cybersecurity operations and prevention and protection against adversarial Artificial Intelligence

FCT call
13. SU-FCT02-2018-2019-2020: Technologies to enhance the fight against crime and terrorism
Sub-topic 4 [2020]: [2020] Development and deployment of technologies, tools and relevant infrastructure to identify speedily terrorist content online, and prevent its re-upload

All calls in Digital Security (DS)

Sesame it

Competencies

- *Organisation competencies*
  - Security Software Editor – working with ANSSI for qualified IP LPM Probes – Critical Infrastructures
  - Network expertise and detection of anomalies and attacks in IP flows
  - Lawful Interception – All types of networks – work with and for Law Enforcement
  - TCP/IP and Industrial protocols
  - Deceptive Solution for Networks protection

- *The skills we can bring*
  - IT networks architecture, supervision, extraction, management
  - Security by design - Secured software architecture (hardening)
  - TCP/IP and OT protocols
  - IA for networks – Observation and learning of behavior of the networks users (used in probes and in deception concept)
  - Extraction and research in traffic flows (Deep Packet Inspection)
