EVALUATION PROCEDURE – DIGITAL SECURITY

Regarding the evaluation procedure, a new condition is added for DS03-2019-2020:

“Grants will be awarded to proposals according to the ranking list. However, for the 2020 topics only, in order to ensure a balanced portfolio of supported actions, at least the highest-ranked proposal per sub- topic will be funded provided that it ~~attains all thresholds.~~”

CNIC aims at ensuring a balanced portfolio of supported actions through the application of this condition (already existing for topic DS02) also to topic DS03.
