 - **Public-Private partnership**
 - **Three founding members:** one private company and two local authorities

- Support from the French Ministry of Interior
- Privileged contacts with Security forces and emergency services
- Showcase for innovative technologies in the field of urban security

PPSL objectives

- **Be an open structure to evaluate new technologies and an international showcase.**
 - Assess the technologies regarding **operational requirements** by:
 - **testing** them with end-users in **real or close-to-real situations**
 - **adapting** them to facilitate an **easy** and **fast roll-out** (incremental process)
 - Ensure that the new technologies developed by industry are **suitable for end users** (close the gap between technological solutions and operational requirements) and **facilitate their dissemination**
 - **Improve the adequacy** and **time-to-market** of Research and Development projects
- PPSL is a joint **technical-operational laboratory** between industry and Security & Safety forces

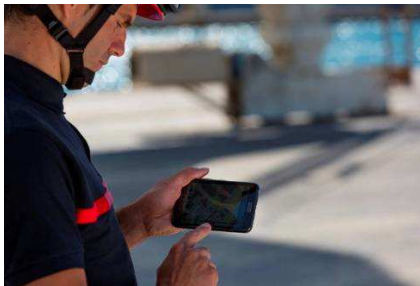

Expertise

- Users' requirements collection:
 - end-users interviews
 - workshops organisation
- Use-cases and experimentations scenario definition
- Integration of the partners' solutions in PPSL infrastructure
- Experimentations/field tests organisation & management
