Work Programme ICT-13b

1. What are you looking for?

   - RIA to develop/improve privacy preserving technologies to foster the European Data Economy and the implementation of its industrial/personal sharing data platforms so to create new business opportunities.

   - Progress beyond the state-of-the-art in scalability and computational efficiency of methods for securing privacy and confidentiality of data

   - GDPR compliant

Work Programme ICT-13b

2. What do you <u>NOT</u> want?

- Re-submitted ICT-18 project proposals from H2020-ICT 2016-2017 Work Programme.

- Speculative exercises not aligned to the overall goal of ICT-13: supporting the creation of data markets.

Work Programme ICT-13b – topic evolution

3. Is this new or has it been called before?

- Not a new topic, it follows the footprints of ICT-18 of the H2020-ICT 2016-2017 Work Programme (aka 'Innovation Space')

- Now focused to be an enabler of trusted, secure data markets. ICT-13a proposals will build on such technologies.

Work Programme ICT-13b – topic evolution

4. Current project portfolio

https://ec.europa.eu/digital-single-market/en/programme-and-projects/project-factsheets-data

Work Programme ICT-13b – Key actors

5. Who are the leading players?

- Academia and research centres
