

Ideal-ist Remote Proposal Check Event for ICT calls in Horizon 2020 11th October

Ideal-ist is holding a **Remote Proposal Check Event for [ICT calls in H2020 in 2016](#)** on the **11th of October**. The event offers proposers a chance to improve the quality of project proposals based on feedback from experienced external experts and national contact points (NCPs). The event aims to transfer useful knowledge and increase proposers' chances for funding.

Procedure

Interested proposers will provide a **good first draft** of their **proposal** for the selected ICT call topic (see the list below) and receive qualified feedback from experienced evaluators during the remote proposal check session. A group of experienced evaluators will sit in Oslo, Norway and meet with proposers via Skype. The remote nature of this workshop will require that proposals are sent electronically to ICTLEIT@rcn.no until the 6th of October. All participating experts will sign a confidentiality declaration.

It will be possible to receive additional consulting by experienced NCP staff.

Selection of participants

Proposers who apply to participate at the event go through a quality assurance process. They will be contacted on the 3rd and 4th of October to assess the degree of completion of their proposals. Short-listed candidates will be invited based on the available places.

Who can attend?

The event will support proposals for ICT calls under H2020, with a deadline in November, 2016. Admission to the event is for the **coordinator** (i.e. one person, mandatory) **plus one** representative from a project partner institution (i.e. one optional person). In exceptional cases, the coordinator may name a proxy to attend.

The evaluators do not check the eligibility of the proposers to submit a proposal for the topic. Therefore, it is strongly recommended that the proposers have an abstract of their proposal checked by their NCP.

The event is free of charge, however, places are limited.

For further questions, please contact your NCP or send an e-mail to the address below:
