Sécurité
PCN - Horizon2020

- **New company** – Started June 2014
- Design, develop and sell **Cyber Security solutions**
- Focusing on the **Industrial Control Systems, SCADA and Internet of Things**
- **Keywords :**
  - Situational Awareness / Intrusion Detection
  - Data Visualisation / Anomaly Detection
  - Internet of Things / Industrial Internet / M2M
- Created by Cybersecurity veterans
  - **Thierry Rouquet**, Serial Entrepreneur, CEO Arkoon Network Security / AFDEL / Cluster EDIT.
  - **Laurent Hausermann**, 15 years cybersecurity R&D, CTO Arkoon Network Security, Hacking, Innovation, Blogger.

European Institute of Technology Idea Challenge

230 startups for IoT and Cybersecurity

3rd prize winner

ICS are piloting critical country-wide industrial processes. They are vulnerable

Defense

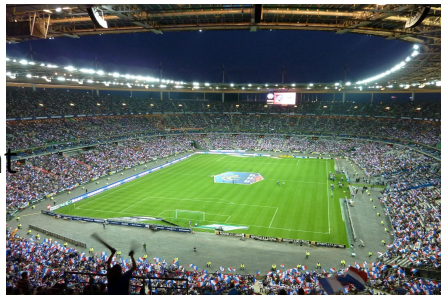
Gas

Energy

Oil

Transport

Urban Environment



Technological Offer

H2020 Call

The role of ICT in Critical Infrastructure Protection

DS-03-2015

Technology

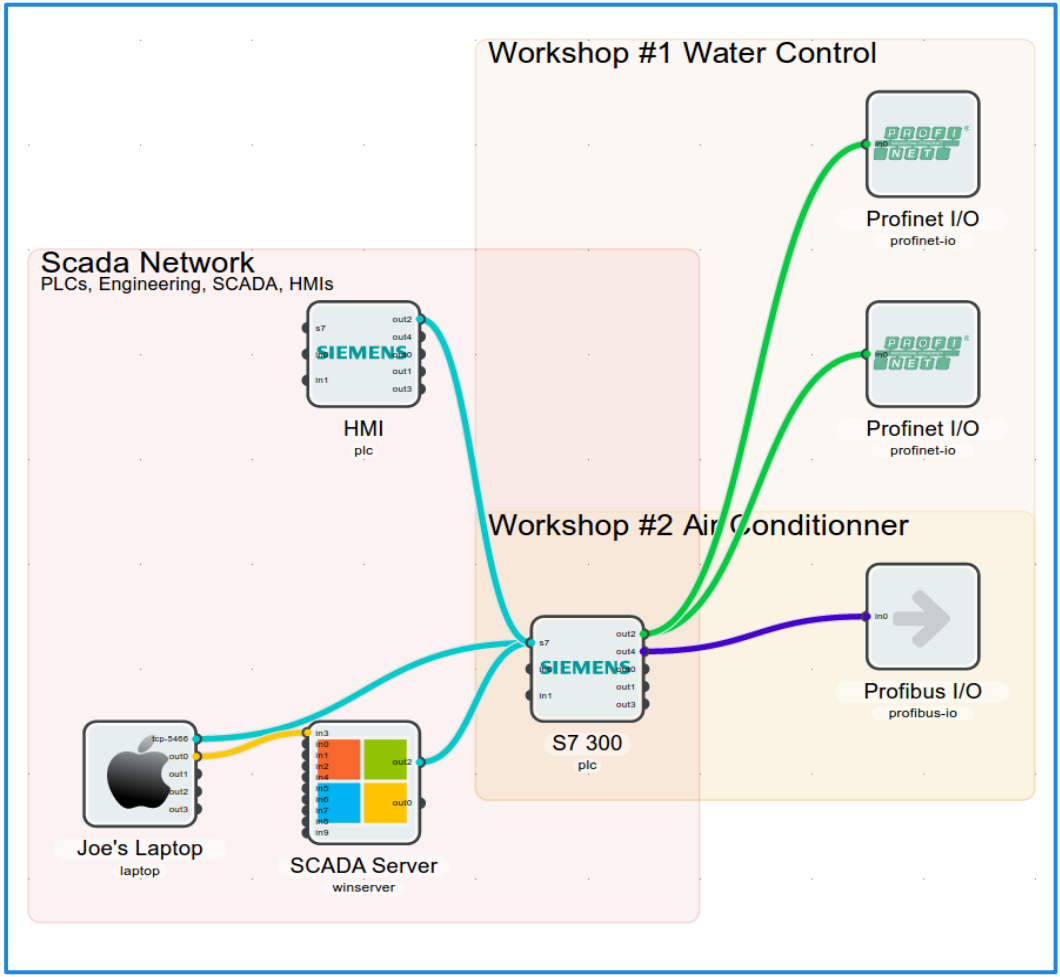
full situational **awareness**, dynamic inventory

continuous **monitoring** of all significant events

and **abnormal behaviours**

Potential Partnership

Large **ICS network managers** or owners

(transport, infrastructures, energy).


Academics with research on cybersecurity, **data visualization, anomaly detection, machine learning**
