#### 1) PROJECT INFORMATION

**Field of expertise related to the topic:** Science promotion and awareness, science communication, innovation

**Potential contribution to the project:** One of the missions of Innoviris is to promote science among young people and the wider public. Our contribution to the project would therefore be our expertise on science education outside the classroom, the embedding of research in an organisation that sustains a regional innovation ecosystem, and data collection and (qualitative and quantitative) analysis).

**Role in the project:**

- Research                       Dissemination                       Other
- Training                       Technology Development

**Project idea:** Comparative research on the impact of science education outside the classroom on future educational and professional choices of youngsters.

**Project description:** Research questions include: how can science education outside and inside the classroom reinforce each other? What are the defining characteristics of innovative educational programmes outside the classroom? What role is there to play for private-public initiatives? How

can we benefit most from information and communication technology? How can we more efficiently target women and young people from disadvantaged backgrounds?
