1) **PROJECT INFORMATION**

Field of expertise related to the topic: bioethics and health law

Potential contribution to the project: Prof. Daniel Sperling is an associate professor in bioethics and health law with an international reputation. He has extensive research experience in ethical and legal issues related to the health sector. Among his many publications he did a study on organ donation and donor's rights pertaining to donated organs and published in this field. He will be able to provide a comparative legal analysis of the issues described in the call as well as an ethical analysis of the major principles and theories to be applied to the case of Organoïds.

Prof. Sperling is also an experienced qualitative researcher, having done in-depth interviews in many countries for his recent book (Sperling, 2019). He may also contribute to the research project
