

Science with and for Society – Project Partner Search Form

CALL: Science with and for Society 2016

\boxtimes	I offer my exp	ertise to p	articipate as a	Partner in	a Project
-------------	----------------	-------------	-----------------	------------	-----------

I am planning to coordinate a project and I am looking for Project Partners

Topics					
	SwafS-01-2016: Participatory research and innovation via Science Shops				
\boxtimes	SwafS-03-2016-2017: Support to research organisations to implement gender equality plans				
	SwafS-04-2016: Opening Research Organisations in the European Research Area				
	SwafS-07-2016: Training on Open Science in the European Research Area				
	SwafS-09-2016: Moving from constraints to openings, from red lines to new frames in Horizon				
2020					
	SwafS-15-2016: Open Schooling and collaboration on science education				
	SwafS-16-2016: Mapping the Ethics and Research Integrity Normative Framework				
\boxtimes	SwafS-17-2016: The Ethics of informed consent in novel treatment including a gender				
perspective					
	SwafS-18-2016: The Ethics of technologies with high socio-economic impact and Human Rights				
rele	evance				
\boxtimes	SwafS-19-2016: Networking of National representatives and resources centres on Gender in				
R&I					

SwafS-25-2016: Celebrating European Science

1) **PROJECT INFORMATION**

Field of expertise related to the topic:

Potential contribution to the project: Gender equality Law was adopted on 10 October 2006 in Azerbaijan. One of the goals of the law is to eliminate all forms of discrimination based on sex, men and women in public life, political, economic, social, scientific, cultural and other fields to ensure equal opportunities and gender equality.

One of the women active in the republic of science. 59% of employees working in the academy are women. 5 members of the Academy of Sciences, corresponding member of the 14 are women. In addition, the heads of the institutes and research institutions operating in the 9 female director. This indicator is one of the foundations of gender equality is confirmed. In particular, the prevalence of women among young scientists and their science in the last few years, confirming the rapid flow of factors. We have good potential for researching in the field of gender equality. So we can join projects related to gender equality.

Role in the project:				
Research	Dissemination	Other		
Training	Technology Development
