##### Strategic orientation 3. Building the territorial dimension of SwafS partnerships

- SwafS-14-2018-2019: Supporting the development of territorial Responsible Research and Innovation
- SwafS-22-2018: Mobilising Research Excellence in EU Outermost Regions

##### Strategic orientation 4. Exploring and supporting citizen science

- SwafS-15-2018-2019: Exploring and supporting citizen science

##### Strategic orientation 5. Building the knowledge base for SwafS

- SwafS-18-2018: Taking stock of the application of the precautionary principle in R&I
- SwafS-19-2018-2019: Taking stock and re-examining the role of science communication
- SwafS-20-2018-2019: Building the SwafS knowledge base
- SwafS-21-2018: Advancing the Monitoring of the Evolution and Benefits of Responsible Research and Innovation

#### 1) PROJECT INFORMATION

**Field of expertise related to the topic:** -Legal Basis:

1-Law \* Nr. 10 431, dated 9.6.2011 "ON ENVIRONMENTAL PROTECTION"(Based on articles 78 and 83 point 1of the Constitution, upon the proposal of the Council of Ministers,)

\* This law is fully aligned with Parliament's Directive 2004/35 / EC European and Council, On 21 April 2004 "On Environmental Responsibility, prevention and repair of damages on the environment " changed. CELEX Number: 32004L0035, The Official Journal of the European Union, Series L, nr. 143, 30 April 2004, pp. 56-75  
 2-LAW No.10 138, dated 11.5.2009 ON PUBLIC HEALTH  
 In support of articles 78 and 83 point 1 of the Constitution, upon the proposal of the Council of Ministers,  
 The proposal aims at:  
 1-Overcome the existing gap between the findings of existing Ozone Approaches,  
 2-To study the impact on the health  
 The study project will identify key areas of interest from decision-makers.

**Potential contribution to the project:** Funding will allow us, to deepen in this specific area, with mutual interest from the partners, across Europe and beyond.

Recommendations after the realization of this study, would help the administrations, that in the future the policies for environmental health, with normative acts and plans, to be based on the most realistic basis.

Such research fields will include the assessment of:

- More detailed assessment of Ozone
- Innovative methodologies
- Special policies for the protection of environmental health and the population
- Environmental education of the population

**Role in the project:**

- Research                       Dissemination                       Other  
 Training                               Technology Development

Project idea: The behavior of ozone in the troposphere.

Project description: Evidence of reactants

- Monitoring of morbidity interdependent
- Environmental education of the population

Already experience as a Coordinator:  yes  no  
 As a Partner:  yes  no

If "yes", which project:

Other partners in consortium already identified (with countries):

**2) TARGET COORDINATOR / PARTNER SOUGHT**

**Organisation details:**
