Short profile of the Organisation: Here at the CNIO over 400 highly specialized professionals are working to defeat one of the main causes of death in our society. On a global level, we are ranked as one of the best centres specializing in cancer research, a claim that can be gauged by the number and quality of scientific papers re accepted for publication in addition to the innovative breakthroughs that pave the way for new drugs and therapies to counter the disease. One of our main objectives is to arrive at an understanding of why cancer occurs in some people and not in others. We are absolutely convinced that only by understanding its whys and hows can we learn how to prevent it from occurring and, if that cannot be done, detect it and fight back when it appears.
