1) PROJECT INFORMATION

Field of expertise related to the topic: University of Rijeka Foundation has organized various public events regarding gender equality plans and social responsible science in academic community. Foundation initiated the implementation of gender studies at University of Rijeka which is ongoing process today. Regarding that, we are connected to the most relevant academic and NGO organizations, media and networks involved in gender issues in field of science, research, politics, economics and culture. Also, our employees have strong education and work background in various gender interdisciplinary projects, such as developing regional Cultural Gender Practices network, managing gender related media and festivals etc. In addition, some of our prominent activities include influence on policy makers related to the implementation of social responsible science principles, development of the innovative cross-sectoral know-how and networking models, national advocacy for topics related to the 'Science with and for Society' programme (such as gender equality plans) and also organising various educational and public events, campaigns and fundraising activities.

Potential contribution to the project: As project partners we can contribute with the project dissemination on national level in Croatia with strong targeting on decision makers, scientists, researchers, entrepreneurs, students and also media. In addition, we can contribute to the development of the project idea regarding the long term experience of activity within the academic community and be relevant partner for the implementation of project aims in local context.

University of Rijeka Foundation can also contribute to the project with the raise of public awareness on project goals and its social relevance, as well as ensuring media interest.

Role in the project:

Research Dissemination Other
 Training Technology Development
