Short profile of the Organisation:

The Centre of Biotechnology of Sfax (CBS) created in 1983 is among the biggest and most relevant research center's specialized in biotechnology in Tunisia. CBS is certified ISO 9001/2015 in Research & Development , valorization and tranfert technology activities) since 2017 by AFAQ AFNOR International . Currently, the CBS is organized into seven research laboratories; a specialized unit

for research Valorisation, a Transfer Technology Office, an Analysis Service and a Business Incubator. The technology transfer office of CBS has for objective besides the promotion and the marketing of the results of research, the awareness of the protection of CBS IPR "the material and immaterial assets " as well as sensibilisation to respect the rules of ethics during research activities.

The CBS research laboratories work in 4 fields of biotechnology:

- Environmental biotechnology
- Industrial biotechnology,
- Plant biotechnology
- Health biotechnology

The CBS is composed by a staff of almost 200 people, including 53 researchers, 64 engineers and technicians; 20 administrative staff and PhD students.

The CBS research groups use bioprocess methods applied in biomolecules, enzymes, antibiotics, antibodies, bioremediation, abiotic stress of plants, biopesticides, food industry, biopharma and bioinformatics. Moreover the CBS reserachers manipulate animal models and Human ADNs.

The CBS has a strong infrastructure with main high tech equipment's (automatic sequencer, LCMS-MS; genomic and proteomic platforms, confocal microscope, series of fermenters up to 1.000 l, downstream processing units).

The CBS researchers participates actively in joint research programs and have several international cooperation projects with partners from all over the world. The CBS has developed during the last decade a large international cooperation with different partners such as FP6 and FP7 projects and has coordinated Era wide FP7, H2020 (RISE)
