1) PROJECT INFORMATION

Field of expertise related to the topic: Our department treats the field of gender, on the theoretical level. The chance to collaborate as partner in this project, will help us improve the empirical facet of this subject. The main lines proposed by the coordinator of this project emphasize the student as both the object and the subject of this implementation.

Potential contribution to the project: The chance to collaborate as partner in this project, will help us improve the empirical facet of this subject. The main lines proposed by the coordinator of this project emphasize the student as both the object and the subject of this implementation.

As a borderline country to Greece, a EU member, we could focus on the mobilization of research as an outermost region of the European Union, taking advantage of the best practices applied by the coordinating country.

We are interested to become project partners. Based on the proposals presented from the project coordinating country, we look forward to follow the main objectives, such as: Enhanced gender balanced distribution; success of male and female students to the underrepresented sectors; put in place a Gender Equality Plan for further improving the career evolution of female Professors, Scientists and the overall university staff.

Role in the project:
